**REAL ESTATE ECONOMETRICS, INC. SELECTED AS
DISTRICT MANAGER FOR THE HACIENDA LAKES
COMMUNITY DEVELOPMENT DISTRICT**

Naples, FL -- Real Estate Econometrics, Inc., has been selected as the District Manager for the Hacienda Lakes Community Development District. As District Manager, Real Estate Econometrics will be responsible for the day to day operations of the District including meetings and annual budget preparations, oversight of the operations and maintenance of the District's public infrastructure, providing accounting services, minutes and public records services and lien book and tax roll services and provide all documentation and reporting requirements applicable to special districts.

The Hacienda Lakes Community Development District is a special purpose government formed in 2013 under Chapter 190, Laws of Florida to manage and finance infrastructure required to support development of Hacienda Lakes, a large master-planned, mixed-use community located on the east side of Collier Boulevard in south Collier County.

Real Estate Econometrics, Inc. focuses on all aspects of the real estate/land development process from determining the market and land acquisition through planning and development, marketing and land disposition. Company consulting disciplines include land entitlement support, land development support, fiscal impact analysis, community development district formation and management, assessment methodology development and litigation support.

For further information, contact Real Estate Econometrics, Inc. at (239) 269-1341 or visit their website at www.ree-i.com.
